PROPOSAL FOR: Paws & Polish Dog Grooming

PROJECT: HTML

PREPARED BY: De-Angelo Ndlela

DATE: 01/08/2026

ORGANIZATION OVERVIEW

Paws & Polish Dog Grooming is a charming local business dedicated to offering top-notch grooming services for dogs of every breed and size. Founded with the goal of helping pet owners maintain their dogs' cleanliness, health, and comfort, the business focuses on creating a gentle and stress-free grooming experience. At Paws & Polish, they believe that regular grooming is essential for a dog's overall health and well-being. By providing professional grooming in a welcoming atmosphere, they aim to foster lasting connections with pet owners in the community. Their mission is to deliver safe, high-quality grooming services that enhance the health, comfort, and happiness of every dog. In doing so, they aspire to be the most trusted and recommended dog grooming service in the area, all while ensuring exceptional customer care for pet owners. Their primary audience includes dog owners of all ages looking for dependable and professional grooming for their furry friends. This encompasses busy professionals, families, seniors, and first-time pet parents who seek convenience and quality in looking after their dogs' needs.

WEBISTE GOALS & OBJECTIVES

Paws & Polish Dog Grooming is a local gem committed to offering top-notch grooming services for dogs of all breeds and sizes. Founded with the intent to help pet owners keep their furry friends

clean, healthy, and comfortable, the business prioritizes creating a relaxing grooming experience. Paws & Polish understands that regular grooming is essential for every dog's health and happiness. By providing professional grooming in a welcoming atmosphere, they strive to build lasting relationships with pet owners in the neighborhood. Their mission is clear: to offer safe, professional, and budget-friendly grooming services that enhance the well-being and joy of every dog, all while ensuring exceptional service for pet owners. They aim to become the most trusted and recommended dog grooming business in the area, achieving this by maintaining high grooming standards and creating positive experiences for both dogs and their humans. The ideal customers are dog owners from all walks of life, including busy professionals, families, seniors, and first-time dog parents who appreciate quality service, convenience, and the health of their pets.

KPI	Current Estimate	6-Month Target
Monthly Website Visitors	50	800

Contact Form Enquiries	8 per month	40 per month
Returning Customers	20%	50%
Customer Reviews	5	40
Average Appointment Completion Rate	70%	95%

CURRENT WEBSITE ANALYSIS

Existing Dog Grooming Website (The Dog Club – Dog Training, Grooming & Animal Casting.)

Strengths

- Clearly displays grooming services and pricing.
- Use attractive photographs of groomed dogs.
- Contact details and business hours are easy to locate.
- Customers can easily learn about the available services.

Weaknesses

- Limited online booking functionality.
- The homepage could highlight special offers and promotions.
- Customer reviews are not prominently displayed.
- Navigation could be improved to help users find information more quickly.

Areas for Improvement

- Add an online appointment booking system.
- Display customer testimonials on the homepage.
- Include before-and-after grooming galleries.
- Improve the mobile-friendly layout and page loading speed.

PROPOSED WEBSITE FEATURES & FUNCTIONALITY

The website is designed to serve dog owners by shining a spotlight on our grooming services and making it super easy to get the information they need and set up appointments. We want to display all the grooming options we offer, along with their prices, our operating hours, and how to get in touch with us. Building trust is important, so we'll share some fantastic before-and-after pictures to show what we can do. Plus, users will find detailed descriptions of our grooming packages and a simple online form to book their appointments hassle-free.

The Paws & Polish Dog Grooming website will include the following features and functionality:

Home Page – Introduces the business and highlights its professional dog grooming services, special offers, and commitment to providing quality care for pets.

About Us – Provides information about the business, its history, mission, values, and the experienced grooming team.

Services – Displays the different grooming packages available, including bathing, hair trimming, nail clipping, ear cleaning, and full grooming services for dogs of all sizes.

Gallery – Showcases before-and-after photographs of groomed dogs, allowing customers to view the quality of the business's work.

Online Booking Page – Allows customers to book grooming appointments by completing an online booking form with their contact details and preferred appointment date.

Contact Us – Provides the business's phone number, email address, physical location, operating hours, and a contact form for customer enquiries.

DESIGN & USER EXPERIENCE

The website will feature a friendly homepage that introduces the business and summarizes the services offered. There will be a dedicated Services page outlining the various grooming packages available for dogs of all sizes small, medium, and large. A Gallery page will showcase before-and-after photos to highlight the quality of grooming work done. On the About page, visitors will meet the groomers and learn about the business's dedication to providing excellent animal care.

Customers can easily book appointments using an online booking form, and they'll find a Contact page with phone numbers, email addresses, operating hours, and a map for directions. To foster trust and encourage new customers, the site will also include testimonials from satisfied clients.

TECHNICAL REQUIREMENTS

The website will be developed using HTML to create the structure of each webpage. It will include separate pages for Home, About, Services, Gallery, Book Appointment, and Contact. Images will be optimized for faster loading; navigation links will connect to all pages and contact forms will be designed to collect customer information. The website will be mobile-friendly, easy to navigate, and accessible to a wide range of users.

Requirement	Description / Purpose
HTML	To create the structure and content of the website, including webpages, headings, images, links, and forms.
Web Hosting	Hosts the website so that it is accessible to customers online.
Domain Name	Provides a professional and memorable website address for the business.
Responsive Design	Ensures that the website displays correctly and works well on different devices such as desktops, tablets, and smartphones.
Web Browser Compatibility	The website will support modern web browsers such as Google Chrome, Microsoft Edge, and Mozilla Firefox to ensure users can access it easily.
Internet Connection	Required for customers to access the website, view services, and submit online booking enquiries.
Online Booking and Contact Forms	Allows customers to interact with the business by requesting grooming appointments, asking questions, and providing their details online.
Website Maintenance	Includes regular updates, backups, and security checks to ensure the website remains functional, safe, and up to date.

TIMELINES & MILESTONES

Phase	Timeline	Milestone
Planning and Research	Week 1	Gather information about the dog grooming business, define website goals, and identify the target audience.
Content Creation	Week 2	Write website content, prepare service descriptions, collect images, and create booking information.
Wireframe Design	Week 3	Design the layout and navigation for the Home, About, Services, Gallery, Booking, and Contact pages.
Website Development	Weeks 4–5	Develop the website using HTML and ensure all pages, links, images, and forms function correctly.
Testing and Improvements	Week 6	Test the website on different browsers and devices, fix errors, and improve usability.
Final Review and Submission	Week 7	Conduct a final review, make any necessary adjustments, and submit the completed website and proposal.

BUDGET

Item	Estimated Cost (ZAR)
Domain Registration	R250/year
Web Hosting	R1,200/year
Website Development	R4,500
Photography and Images	R800
Website Maintenance	R2,000/year
Total Estimated Cost	R8,750
